Centuries of history in one city, UNESCO World Heritage

Verona is a cosy and pleasant medium sized city (250,000 inhabitants) on the Adige river. It is an amazing city of art, surrounded by the traces of its ancient history, splendid in its mythical dimension bestowed upon it by the Shakespearean tragedy of ‘Romeo and Juliet’.

Verona was recognized as a UNESCO World Heritage Site in the year 2000. Roman ruins, medieval vestiges, Venetian and Austrian traces can be seen all across the city, as well as antique palaces, squares, bridges and wonderful churches. Lake Garda, a real natural gem, is very close (about 50 km).

The Arena (in Bra Square)
The Arena is located in Piazza Bra (in the historical centre). This Amphitheatre was built in the first half of the 1st century A.D., in the period which marked the end of Augustus’ reign and the beginning of that of Claudius. It is the third largest amphitheatre in Italy, after the Colosseum and the amphitheatre of Capua. The Arena could contain 30,000 people. It consists of three concentric rings, but only a brief section of the external ring remains. The façade was built in limestone (white and pink) from the Valpolicella quarries.

Its elliptical shape produces perfect acoustics from every physical standpoint in the Arena, and enhances its capacity to accommodate a great number of people. The centre of the amphitheatre, called the ‘harena’ in Latin (i.e. sand), was the area covered in sand, where gladiatorial combats were held.
Verona is a human scale city which fascinates visitors with its elegance and its welcoming atmosphere, in which ancient and modern times meet. A glimpse of the city is love at first sight, and will entice you to come back and explore it thoroughly. Elegant cafés and ancient ‘osterie’ (typical inns of the Veneto territory), craftsman shops and high couture shops enliven city life all year.
